ASK ABOUT OUR MOBILE SERVICE

Store Hours: Monday – Friday 7:00AM – 5:00PM
Toll-Free Customer Service: For questions regarding an order, or if you have a suggestion of how we can improve our service, please call us toll-free at 1-800-377-5652.
On-Line: Our merchandise can be ordered on our website www.inlad.com 7 days a week, 24 hours per day.
Satisfaction Guarantee: Whether placing an order for shipment, getting an install in our shop or onsite, INLAD Truck & Van Equipment guarantees prompt reliable service.
Prices: We try very hard to ensure correct pricing and specifications in our catalog and on our website; however, we reserve the right to correct price errors at time of ordering. All pricing and specifications are subject to change without notice. Prices listed herein do not include installation charges; these will be quoted upon request by one of our Sales Reps.
Shipping: Whenever possible, we ship orders within 48 hours by Federal Express or, for bulky items, common carrier. Shipping charges, when applicable, will be added to your invoice and quoted at the time of ordering. Damage from shipments must be noted on the delivery ticket and claim made with the delivering carrier. Neither INLAD Truck & Van Equipment nor the delivering carrier can be liable for claims that are not presented in a prompt manner. No returns accepted after thirty days. Some merchandise may require assembly.

Master Lock 

The Solid Steel 770 Hasp Defeats attempts to pry and cut. Hardened solid steel lock body withstands forcible attacks. Complete with high security 6-pin Pro Series® cylinder. We sell these locks keyed alike. Ideal for Sprinter Van Doors.

Shackleless Round Solid Steel

Solid Steel Hasp

Part#: ML6270

Part#: ML770

Keep your Sprinter safe with...

The Deadbolt Locks are installed inside the door, making the locks tamper-proof, (unlike padlocks and factory installed locks). Cargolock is a stand alone system or it can be integrated with a remote control system for those who want to get in and out of their van conveniently. When you need total security for your vehicle, we have the only proven deadbolt locking system available.

Part#: 30300-'06 & older

Part#: 30301-'07 & newer

Sprinter Ladder Racks

E-Z GLIDE™ SYSTEM No more climbing your van before you climb your ladders. With just a twist of a lever, the EZ-GLIDE™ System delivers your ladder to the right spot for back-saving loading and unloading. And when the work is done, another twist is all it takes to have the ladder packed away and ready to roll. The quickest, easiest and safest drop-down ladder rack system available, the EZ-GLIDE System also has a long-lasting aluminum frame design and interlocking supports that ensure your ladders stay in place when stowed.

These professional-grade EZ-GLIDE™ System racks have added features designed specifically for Sprinter vans. An added slide down system lowers the ladder an additional 2 ft. after the drop-down rotation on the high roof van model.

The essential EZ-GLIDE™ System rack comes with a drop-down system on the passenger side and a standard ladder rack on the driver's side. Maximum ladder weight of 75 lbs. per drop-down assembly. Mounts to rain gutters.

The driver's side drop-down kit is universal and fits the EZ-GLIDE™ System racks by unbolting the driver side end posts and bolting the kit in place. Maximum ladder weight of 75 lbs. per drop-down assembly.

All EZ-GLIDE Systems come with a wide range of benefits:

- **Long-Lasting Design** — lightweight aluminum frame keeps rust at bay for a long-lasting, professional appearance. Rustproof stainless steel fasteners and non-metallic bushings eliminate bi-metal corrosion.
- **Stow And Secure** — interlocking ladder supports ensure ladders stay in place when stowed. Ladders can be padlocked for added security.
- **Ergonomic Drive Arm** — telescoping lever extends to fit your reach. Extra-strength handle, lever and hinge hardware provide maximum durability and ease of use.
- **EZ-GLIDE System Hydraulic Cylinder** — provides a smooth, quiet and effortless descent. Zero-impact drop reduces noise and equipment wear.

PART #	YEAR	DESCRIPTION	WT.

NEW  **ADRIAN STEEL**

Sprinter LoadsRite Ladder Rack

- **Secure** - Ladder clamps hold ladder tight during transportation.
- **Ladder protection** - Fiberglass ladders are protected by a layer of plastic when loaded on the rack.
- **Safe** - Two hand operation required to release ladder down into load and unload position.
- **Durable** - 3rd cross support protects drive shaft, greatly reducing wear and tear.
- **Easy operation** - Rollers and dampers create a smooth transition to the stowed and down positions.
- **Back saver** - Designed to allow loading and unloading of ladders one end at a time.
- **Easy reach handle** - Release handle slides down lower than competing racks for easier reach.
- **Ladder capacity** - Accommodates 16'-32' extension ladders.
